

Environmental Policy Statement

We are an environmentally conscious company and as such we acknowledge the potential environmental impact that our operations may have on the environment. Quadrant Building Control works with architects, contractors, developers and home owners seeking Building Regulations approval for all types and sizes of construction projects.

We are committed to protecting the local and global environment and in order to minimise environmental impact we shall:

- Comply with applicable legal requirements and other requirements to which the company subscribes which relate to its environmental aspects.
- Include the consideration of environmental issues in all business strategies and initiatives.
- Ensure protection of the environment is firmly embedded in both the company's and all employees culture.
- Minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where we have responsibility.
- Coordinate business transport where possible so as to reduce consumption.
- Use energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long term sustainability of consumable items; and
- Educate, train and motivate employees to carry out tasks in an environmentally responsible manner and ensure that a continuous professional development strategy remains core to our business goals; and
- Encourage environmental protection among consultants.

The Company is committed to the continual improvement of our environmental performance.
